SUPPLEMENTAL INSPECTION REMARKS

Permit No.: 16 007 H

The following remarks supplement the inspection report of: Centennial School cafeteria
(Establishment Name)

Date: 15 September 2016

Item	Code	Section	Inspection Remarks	Correct by
		FYI	HAZARD ANALYSIS CRITICAL CONTROL POINT	
			- Keep potentially hazardous food requiring time/temperature controls for safety out of the temperature danger zone of 41° F – 135° F [use a clean and sanitized metal-stem thermometer to monitor internal food temperatures]	
			- Wash hands frequently at hand sink with hot water (110° F), especially before using gloves; if using nail brush: rinse hands→use nail brush→wash hands for at least 20 seconds w/ warm water & hand soap – double hand washing required after using the restroom	
			- Recommend documenting temperatures of refrigeration units, freezing units, hot-holding units, internal food temperatures, sanitizer concentrations, dishwasher temperatures, etc., on a log sheet	
			- Reheat potentially hazardous food to 165° F within 2 hours – do not use crock pots or steam tables to reheat food	
			- Make sure all containers of food are properly labeled w/ <u>name</u> and <u>date & time</u> of opening of package, in addition to the <u>date & time</u> when the food was placed into the container; discard PHF under refrigeration after a maximum of 7 days	
			- Make sure containers of food, single-service items, etc., are protected from consumer contamination (covered, sneeze guards, etc.)	

Sanitarian/Environmental Health Inspector Paul McKinney

These remarks have been explained to me and are understood Jill S. Rayder
(Signature of Owner or Representative)

NRI = Next Routine Inspection
C = Corrected During Inspection
