RE: Panther Grove Wind Project
Evaluation of Two Off-Air TV Stations Previously Omitted in TV Report

Two broadcast TV stations, WYZZ and WEEK, were inadvertently omitted from the Comsearch TV report from September 2019 due to a search error of the FCC database that has since been rectified. Upon further review, we determined that the inclusion of WYZZ and WEEK in the list of TV stations surrounding the Panther Grove wind energy project will not change the conclusions and recommendations in the Off-Air TV report nor does it change my oral testimony provided at the public hearing on 12/3/20.

If there are any questions or concerns, please feel free to contact me.

Sincerely,
COMSEARCH
