Re: TGE Illinois 181 Project: Woodford County, IL

Dear Mr. O'Brien:

In response to your request on September 27, 2019, the National Telecommunications and Information Administration provided to the federal agencies represented in the Interdepartment Radio Advisory Committee (IRAC) the plans for TGE Illinois 181 Wind Project, located in Woodford County, Illinois.

After a 45+ day period of review, no agencies had issues with turbine placement in this area.

While the IRAC agencies did not identify any concerns regarding radio frequency blockage, this does not eliminate the need for the wind energy facilities to meet any other requirements specified by law related to these agencies. For example, this review by the IRAC does not eliminate any need that may exist to coordinate with the Federal Aviation Administration concerning flight obstruction.

Thank you for the opportunity to review these proposals.

Sincerely,

John R. McFall  
Deputy Chief, Spectrum Services Division  
Office of Spectrum Management
