A total of doses of 4,323,145 vaccine have been delivered to providers in Illinois, including Chicago. In addition, approximately 414,900 doses total have been allocated to the federal government's Pharmacy Partnership Program for long-term care facilities. This brings the total Illinois doses to 4,738,045. A total of 3,567,927 vaccines have been administered in Illinois as of last midnight, including 349,983 for long-term care facilities. The seven-day rolling average of vaccines administered daily is 95,369 doses. Yesterday, 104,777 doses were administered in Illinois.

*All data are provisional and will change. In order to rapidly report COVID-19 information to the public, data are being reported in real-time. Information is constantly being entered into an electronic system and the number of cases and deaths can change as additional information is gathered. Information for a death previously reported has changed, therefore, today's numbers have been adjusted. For health questions about COVID-19, call the hotline at 1-800-889-3931 or email dph.sick@illinois.gov.
